A JOINT RESOLUTION of the Senate and House of Representatives of the State of Alabama, disapproving certain resolutions of the legislatures of the States of Delaware, Connecticut, Illinois and Indiana, concurring with a resolution of the state of Ohio, proposing the emancipation of slaves; and a resolution of the legislature of New-Jersey, recommending a system of foreign colonization.

The select committee, to whom was referred a resolution of the state of Mississippi, transmitted in a special communication to this house by his Excellency the Governor, disapproving of resolutions passed by the legislatures of the states of Ohio, New-Jersey, Delaware, Connecticut, Indiana, and Illinois, on the subject of the abolition and general emancipation of persons of color held in servitude in the United States; having had the same under consideration, respectfully submit the following report:

They conceive that the subject is one in which the *States* (where the evil complained of exists) are alone interested; that the frequent interference of the non-slave-holding states in a matter so purely internal and domestic, is alike impolitic and incompatible with the rights and interests of the slave-holding states; and that the dictates of policy forbid the too frequent agitation of a question which by the constitution of the United States, and of the several slave-holding states, is beyond the exercise of legislative control. Your committee further suggest, that if at any future day the evil complained of becomes too oppressive to be borne, that it will be the peculiar privilege as well as duty of the slave-holding

states themselves to apply such expedients of relief as their information may suggest, and their own interests and safety may require; and in determining the proper time when this great work of policy and benevolence shall commence, they conceive that the states most interested in the result can alone be the proper judges.

Your committee, therefore, ask leave to recommend the following joint resolution to accompany this report:—

Resolved by the Senate and House of Representatives of the State of Alabama, in General Assembly convened, That the resolutions of the States of Delaware, Connecticut, Illinois and Indiana, concurring with a resolution of the state of Ohio, proposing the emancipation of slaves, passed on the seventh day of January, one thousand eight hundred and twenty-four, together with a resolution from the state of New-Jersey, recommending a system of foreign colonization to be adopted, to effect the entire emancipation of slaves, be, and the same are hereby disapproved, by the Legislature of this State; and that his Excellency the Governor be hereby requested to transmit a copy of this resolution and report to the Executive of each of the United States. Approved Jan. 1, 1827.

REPORT and RESOLUTIONS in relation to the system for the disposal of the Public Lands, and to the unsettled Land Claims, in this State.

The special committee, to whom was referred so much of the Governor's message as relates to the system for the disposal of the public lands, have had that subject under their consideration, and have instructed me to report the following *Joint Resolutions*.

1. *Resolved*, That this General Assembly do highly approve of the plan proposed by the Hon. Mr. Benton of Missouri, for the future disposal of the public domain, as contained in a bill introduced and advocated by him in the Senate of the United States, during the last session of Congress, providing for the future sale of the public lands *by entry*, at certain fixed and graduated prices, in exclusion of the present mode *by auction*, and for the ultimate disposal of such as may remain unsold for a certain period *by donation to actual settlers*, reserving to the actual settler or occupant in all cases the right of pre-emption for a limited time, of a quantity not exceeding one entire section.

2. *Resolved*, That our senators in Congress be instructed, and our representatives requested to use their utmost endeavors to procure the passage of a law containing the foregoing or similar provisions: and also of a law providing for the final adjustment upon equitable principles, of the unsettled land claims in this state.

3. *Resolved*, That a copy of the foregoing resolutions be transmitted by the Governor, to each of our senators and representatives in Congress.

Sec. 1. *Resolved, by the Senate and House of Representatives of the State of Alabama, in General Assembly convened, That our senators in Congress be instructed, and our representatives requested, to use their endeavors to procure the passage of an act to authorize the legislature to sell and convey in fee simple the section numbered sixteen in each township in this state, granted by the United States to the inhabitants of said township.*

for the use of schools, and to invest the money arising from the sale thereof in some productive fund, the proceeds of which shall be forever applied under the direction of the General Assembly, for the use and support of schools within the several townships for which they were originally reserved and set apart, and for no other use or purpose whatsoever: *Provided*, That in the apportionment of the proceeds of said fund, each township aforesaid shall be entitled to such part thereof and no more as shall have accrued from the sale of the school land belonging to such township: *Provided further*, The inhabitants of each township first give their consent to the sale of the same.

Sec. 2. *And be it further resolved*, That his excellency the Governor, he and he is hereby authorized and required to transmit copies of the foregoing resolution to our senators and representatives in Congress.

APPROVED Jan. 12, 1827.

RESOLUTIONS instructing our Senators and requesting our Representatives in Congress to use their endeavors to procure an equal extension of the National Judiciary System to the Western and South-Western States of the Union.

Whereas it is a fundamental principle in the constitution of the United States, that the people in the several States shall enjoy an equal participation in the enactment of laws for their government; and it being no less necessary to their welfare, and security, that they should participate equally in the administration of such laws by the different departments to which that power is confided; and whereas, under the present organization of the judicial department, such *equality does not exist*, one portion of the Union being *denied* a description of courts, and grade of judicial officers extended to others—there being in the nine western and south-western states but *one* resident judge of the supreme judicial tribunal, while the Atlantic states, with a population only about twice as numerous, have *six*; and the members of the general assembly, believing it due to their constituents and to the people of other states similarly situated to claim their rights; Therefore,

1. *Resolved, by the Senate and House of Representatives of the State of Alabama, in General Assembly convened*, That it is in their opinion the duty

of the congress of the United States, without further delay, to extend to all the states equally, the present judicial system of the Union.

2. *Resolved*, That our Senators in congress be instructed, and our Representatives requested, to exert their influence to procure the passage of an act in conformity with the foregoing resolution.

3. *Resolved*, That his excellency the Governor, transmit to each of our Senators and Representatives in congress, a copy of the foregoing preamble and resolutions.

Approved Jan, 13, 1827.

MEMORIAL to the Congress of the United States, asking permission for the Trustees of the University of Alabama to select other lands in lieu of those herein described.

Memorial to the Senate and House of Representatives of the United States of America, in Congress assembled. The memorial of the Senate and House of Representatives of the state of Alabama, in General Assembly convened, respectfully represent, That section twelve, containing 638 84-100 of an acre; the north-east quarter of section 17, containing 159 11-100 of an acre; the north-east quarter of section 28, containing 158 81-100 of an acre; and the east part of the north-east quarter of section 34, containing 106 12-100 of an acre, in township 4, range 11, west, in the Huntsville land district, patented to the Trustees of the University of Alabama, on the 16th July, 1824, have been subsequently sold by the United States to individuals, who are now in peaceable possession thereof, and have made considerable and valuable improvements thereon: In order that the quiet possession of innocent and *bona fide* purchasers should not be disturbed, and believing that a selection of other lands could be made as equally beneficial, your memorialists respectfully submit to your honorable body the propriety of passing a law granting permission to the said trustees of the university of the state of Alabama to make a selection of other lands in lieu thereof, giving said trustees the power of selecting any lands which have been forfeited, reverted or relinquished to the United States, at any of the land offices in this state, in lieu of the above described lands—

Resolved by the Senate and House of Representatives of the State of Alabama, in General Assembly convened, That our Senators in Congress be instructed, and our Representatives requested, to use their efforts to obtain the passage of a law in conformity with the foregoing memorial.

Be it further resolved, That his Excellency the Governor be requested to transmit to our Senators and Representatives in Congress one copy of the foregoing memorial and resolutions.

Approved Jan. 12, 1827.

MEMORIAL to the Congress of the United States on the subject of a donation to the trustees of La Fayette Academy in the village of La Grange.

The Memorial of the legislature of the State of Alabama, in General Assembly convened, respectfully represents, that at the last session of the legislature of this state a female academy was incorporated in the village of La Grange in the county of Franklin; that the citizens of said village at their own expense erected a handsome building of small dimensions, for the reception of students of both sexes; that, although it has scarcely been in operation twelve months, it contains at present between eighty and ninety students, and in a short time there is not the least doubt if suitable buildings were erected, the number would be increased to one hundred. The expense of erecting suitable buildings and obtaining the necessary apparatus for the use of said school, is greater than the citizens

at said village can in justice to themselves incur; we would remark to your honorable body that the situation of that village is probably better calculated for at least a primary seminary of learning than any other point within the limits of our state, being situated on a beautiful and elevated point of the Cumberland mountain extending itself into the valley of the Tennessee river, on which nature has exerted her skill to render as well one of the most delightful and romantic situations imaginable as the seat of health; from the summit of the point and some miles around, gush a variety of medical springs possessing different medical qualities, as well as springs of the purest and sweetest water; it is adjoining the most beautiful part of the valley of the Tennessee river, and in the neighborhood of some of the most flourishing towns in said valley, owing to its having been selected as a retreat from the diseases incident to our climate; the society is not surpassed by that of any community whatever. As education should be peculiarly cherished by governments like ours, and as our government have it fully in her power to endow an indefinite number of primary schools without the least injury to said government by making donations of land, or permitting the trustees of different institutions to enter a certain quantity of land at the minimum price. We would therefore, respectfully submit to the consideration of your honorable body the propriety of making a donation to the trustees of the said institution, of the south-east quarter of section thirty-four, township four, range ten, west, in the Huntsville land district, which lies adjoining said village, for the purpose of erecting thereon the necessary buildings for the use of said school, which quarter section is extremely sterile and of no value except for the purpose aforesaid; we would also, respectfully submit to your honorable body the propriety of making a further donation or permitting the trustees of said institution to enter at the minimum price the following designated lands, which lies adjoining said village: the north-east quarter of the aforesaid section, mostly mountainous; also, the east half of the south-east quarter of section twenty seven, and the east half of the north-east quarter of said section twenty-seven; all lying in the aforesaid township and range; also, any other number of quarter sections of land lying in Franklin county, not exceeding fifteen, which has been sold and relinquished, on which there is no occupant.

Resolved therefore by the Senate and House of Representatives of the State of Alabama, in General Assembly convened, That our Senators be, and they are hereby instructed, and our Representatives requested, to use their best endeavors to procure the passage of a law embracing the object of the foregoing memorial.

And be it further resolved, That the Governor be, and he is hereby required to forward one copy of the foregoing memorial and resolutions to each of our Senators and Representatives in Congress.

APPROVED JAN. 13, 1827.

RESOLUTIONS protesting against the exercise of implied, constructive, and unconstitutional powers on the part of the Federal Government, and asserting the rights secured to the States respectively by the Constitution of the United States.

Whereas it is of vital importance to the prosperity and existence of all free governments, that every grant of power should be exercised by the functionary to which it is particularly assigned, and that the limits of all power should be fully known and established, according to the fundamental laws upon which said governments rest: And whereas, in the practical operations of the government of

the United States, much difference of opinion exists as regards the relative powers of the States, and Federal Government: And whereas, the powers claimed by the latter have increased to an unjustifiable extent, while those of the former have suffered a corresponding diminution: And whereas, the several states, as parties to the compact which conferred all power on the general government, have the unquestionable right of expressing their decided disapprobation of any measures on the part of the general government, which they conceive to be a violation of said compact: And whereas, a frequent recurrence to first principles is essential to the correct adjustment of all political differences of opinion, and will serve as the surest guide in the exercise of all political power:

Be it therefore Resolved, That in conjunction with the states of Virginia and South Carolina, as appears by resolutions passed during the last sessions of their respective legislatures, we strongly Protest against the exercise by the general government of implied and constructive powers, as having rendered void, destroyed, those rights which were reserved by the states, respectively, as essential to their sovereignty, and being in their very nature unlimited in extent, and uncontrollable in their operations.

Resolved, That we approve of the course pursued by the republican party during the eventful crisis of '98 and '99, in opposition to the usurpations of the general government, claimed under the above described powers.

Resolved, That the imposition of taxes and duties by the Congress of the United States for the purpose of protecting and encouraging domestic manufactures, is an unconstitutional exercise of power, and is highly oppressive and partial in its operation.

Resolved, That Congress has not the right, under the constitution, to adopt a general system of internal improvements in the states as a national measure, and that it has not the right to tax the citizens of one state to carry on internal improvements in another.

Resolved, That the President of the United States, has not the constitutional power to originate any foreign mission, or to appoint any foreign minister, on such newly originated mission, but by and with the advice and consent of the Senate of the United States.

Resolved, That the abrogation of the treaty of the Indian Springs, concluded February 1825, by the United States' commissioners and the Creek Nation, without the consent of the governments of Georgia and Alabama, parties in interest, was an unconstitutional exercise of Federal power, and an infringement of the sovereign rights of said states.

Resolved, That the President of the Senate of this state be and he is hereby requested to transmit to each of our Senators and Representatives in Congress, a copy of the foregoing preamble and resolutions. *Approved Jan. 13, 1827.*
